Glossary

1. Introduction

1.1 The New Jersey Department of Labor is in the progress of modernizing the Unemployment Insurance Program. The project includes the reengineering of the business processes, and the system processes needed to support these new business processes. The Use Cases describe our business requirements and the system requirements needed to support these requirements. The Glossary will enable readers to understand basic acronyms used by the department when describing our requirements.

1.2 Scope

2. Definitions

2.1 ABT – Additional Benefits while in Training

2.2 ACSES - Automated Child Support Enforcement System

2.3 ADDITIONAL CLAIM- An unemployment claim filed during an established benefit year following a break in benefit payments due to employment.
